

OLYMPUS®

VE-31/VE-32

Stereo Microscopes

Affordable, Easy-to-Use, Portable Microscopes

Suitable for a wide range of laboratory, research, assembly and inspection in factories, as well as for educational purposes, the Models VE-31 and VE-32 redefine standards for stereo microscopes. Although exceptionally compact and lightweight, the VE-31 and VE-32 offer all the functions required for most applications—

including interpupillary distance adjustment, diopter adjustment, focusing tension adjustment and a slider-mounted aperture diaphragm.

Because the optical system is a product of the outstanding technology that made Olympus famous, you are assured a sharp, clear image every time.

- 2-stage slider-mounted aperture diaphragm adjusts brightness, contrast and depth-of-focus.
- Removable stage plate finished in black-and-white to allow selection of background according to specimen type.
- Allows direct mounting of LSGA-3 Epi-Illuminator on the microscope body.

- Accepts PM-6 Photomicrographic Camera for photomicrography of specimens.

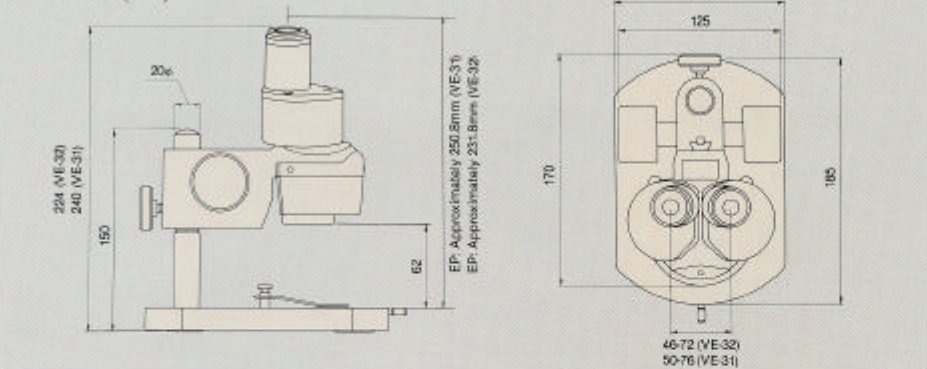

VE-32

SPECIFICATIONS

Model number	VE-31	VE-32
Total magnification	20X	40X
Eyeiece	G10X-T, F.N. 20	G20X-T, F.N. 10
Objective	2X, fixed, N.A. 0.09, working distance: 62mm	
Interpupillary distance	50—76mm	46—72mm
Diopter adjustment	± 5 diopters	
Focusing adjustment range	48mm, with focusing tension adjustment	
Stage plate	Black-and-white, 80mmφ	

Dimensions (mm)

Equipped with storage case (plastic): 245(W) × 186(D) × 210(H)mm

Specifications are subject to change without notice.
